Basis of Preparation

The operating budget estimates and rates resolution is presented for the 2022 financial year. The requirements of Council Policy 77 'Rates and Charges' (Rates Policy) and Council's Financial Management Strategy have been taken into consideration. The objective of the Rates Policy is to maintain a sustainable rates system that provides revenue stability and supports a balanced budget to avoid placing the burden of current expenditure on future generations. The purpose of the Financial Management Strategy is to manage the Long Term Financial Plan to retain an underlying surplus after excluding capital income and expenditure. In preparing the operating budget, Council considers the demand for services and the cost of maintaining facilities for the benefit of community members.

Underlying Deficit

The 2022 operating budget provides for an underlying deficit (loss) of \$653,200. After removing the impact of higher than average one off expenditure the position is an estimated deficit of \$99,600. The general rates increases and changes to the waste service charges are designed to return the waste function to a cost recovery position and recover some of the extraordinary financial pressures caused by the COVID-19 pandemic and associated "Community Care and Recovery Package COVID-19 Pandemic" (Recovery Package) approved by Council on 7 April 2020. In forming the Recovery Package Council identified that a loss would be established for the 2021 financial year on the basis that the long term costs to Council of the pandemic are made back over the ten year Long Term Financial Plan (LTFP). Continuing to provide for a surplus into the future remains a challenge for Council. Funding for specific one off projects and programs to be delivered (Attachment 3) have been considered and accommodated within the context of the Long Term Financial Plan, they are unusually high in 2022 with a number funded by external operating grants.

An underlying operating surplus occurs where the operating revenue exceeds operating expenditure. The benchmark is a surplus greater than zero (break even operating result). A positive result designates a surplus, a negative result indicates a deficit which cannot be sustained long-term.

Table 1: Actual and budget underlying surplus / (deficit) 2019 to 2022

1,000,000 803,346 800,000 600,000 433,784 400,000 200,000 0 Actual **Anticipated** Actual **Budget** -200,000 2019 2020 2022 2021 -400,000 -600,000 -681,400 -653,200 -800,000

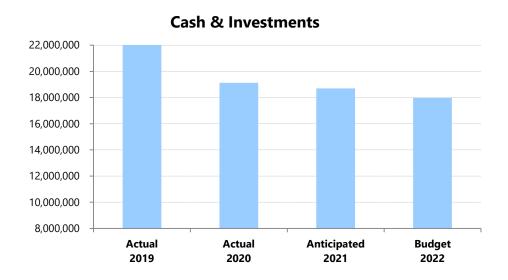

Underlying Surplus/(Deficit)

Cash & Investments

The opening cash & investments balance in 2021 was \$19,126,100, this is before removing total liabilities at the time of \$11,225,300. The balance is estimated to be reduced to \$17,983,700 at the end of 2022 before taking into account any liabilities (assumed to be a similar amount).

Table 2: Actual and budget cash & investments balance 2019 to 2022

Capital Works Expenditure

The Infrastructure and Works departments continue to manage increased capital works expenditure programs. The amounts in table 3 include the program approved by Council in May each year. Accelerated and new capital expenditure will increase depreciation and maintenance expenses in future operating budgets. Council approved the 2022 capital works projects at the May 2021 meeting; this combined with the estimated carry over projects from prior years brings the works in 2022 to \$11,382,400.

Table 3: Budgeted capital works expenditure 2019 to 2022

	2019	2020	2021	2022
Capital Works Program amount	\$8,181,500	\$7,641,000	\$11,499,000	\$9,436,800
Carried Forward amount	\$5,571,600	\$4,337,100	\$3,726,800	\$1,945,600
Total Estimated Spend	\$13,753,100	\$11,978,100	\$15,225,800	\$11,382,400

Inflation Reference

The Financial Management Strategy requires that general rates be increased at least in line with inflation to ensure that the primary source of funding in the LTFP is not diminished and that Council is keeping pace with meeting the cost of providing services to the community. Keeping pace with inflation allows current levels of service to be maintained, assuming other revenue sources (e.g. grants, interest and distributions from Taswater) also increase in line with costs. In response to the COVID-19 pandemic Council applied no increase to the General Rates for the 2021 financial year budget, the 2020 rate in the dollar was applied for property owners in 2021. On this basis inflation references for both the 2020 and 2021 years have been provided as they should both be considered as a reference point for the 2022 budget estimates.

The Council Cost Index (CCI) is produced by the LGAT and provides an indication of how Council expenditure has changed over a period of time where spending remains constant. The index components are wage price index (50%), road & bridge construction index (30%) and the CPI for Hobart (20%). Consumer Price Index (CPI) measures the change in prices paid by households for goods and services for consumption purposes typically by measurement of the price change in a basket of consumer goods. The road & bridge construction index measures the general changes in prices in construction costs in the road and bridge construction sector.

Table 4: Relevant inflation indexes

Ratio	2020	2021
Council Cost Index (CCI) Tasmania	2.2% (Jan 19 - Dec 19)	1.0% (Jan 20 - Dec 20)
Consumer Price Index (CPI) Tasmania	3.4% (Mar 19 - Mar 20; 2.7% Dec 18 - Dec 19)	1.1% (Mar 20 - Mar 21; 0.8% Dec 19 - Dec 20)
Wage Price Index Tasmania	2.3% (Mar 19 to Mar	1.5% (Mar 20 to Mar 21)

General Rates

General rates constitute taxation for the purposes of Local Government rather than a fee for service and are based on the value of rateable land. Council's rates policy requires the general rates to be levied based on a property's Assessed Annual Value (AAV). The values for each property are determined by the Tasmanian Valuer General (OVG) who are regarded as the independent assessor of a property's value. AAV reflects a ratepayer's capacity to pay.

In 2019 all properties received a fresh valuation with the updated values applied on 1 July 2019. A full revaluation of every property occurs every six years with adjustment factors (indexation) received every two years from the valuation however the Tasmanian Government have advised that they will

not be providing indexation for properties this year citing the impact of the pandemic on their operations.

Table 5 has been prepared as an estimate of general rates charges from a number of Northern Tasmanian Councils. It does not take into account the differing circumstances, services provided, or the value of properties within each Council area. The values are based on Meander Valley's average Residential property for 2021 (\$329,500 capital value, \$14,100 AAV) and average Primary Production property for 2021 (\$893,600 capital value, \$35,700 AAV).

Table 5: General Rates estimate comparison from Northern Councils in 2021

Council	Residential Property rates estimate		Primary P	roduction Property nate
City of Launceston	\$1,245	Based on a fixed charged of \$291 plus AAV RID 6.7654	\$2,976	Based on a fixed charged of \$291 plus AAV RID 7.5215
West Tamar	\$1,141	Based on an AAV RID 8.09 with a \$176 minimum	\$2,888	Based on an AAV RID 8.09 with a \$176 minimum
George Town	\$1,125	Based on Averaged Area Rates for George Town residential properties	\$2,977	Based on 0.3331 cents in the dollar on the capital value of the land
Break O'Day	\$1,142	Based on an AAV RID 8.10 with a \$551 minimum	\$2,892	Based on an AAV RID 8.10 with a \$551 minimum
Dorset	\$1,020	Based on an AAV RID 7.2367 with a \$273 minimum	\$2,584	Based on an AAV RID 7.2367 with a \$273 minimum
Northern Midlands	\$984	Based on an AAV RID 6.98 with a \$488 minimum	\$1,432	Based on an AAV RID 4.01 with a \$299 minimum
Meander Valley	\$801	Based on an AAV RID 5.682 with a \$170 minimum	\$2,028	Based on an AAV RID 5.682 with a \$170 minimum

Table 6 outlines the general rate increases that Council has approved from 2019 to 2022. General rates revenue includes increases on the prior year rates levied (by percentages below) in addition to amounts received for new property developments and supplementary valuations throughout the year.

Table 6: Meander Valley rate increases 2019 to 2022

	2019	2020	2021	2022
General rate increase	4.50%	2.50%	0%	3.75%

Council receives an increase in general rates each year due to property development activity, primarily new building construction and property subdivision. The amount of additional rates from supplementary property revaluation varies from year to year, \$55,000 in rates from property development has been budgeted for 2022.

Council's anticipated actual General Rates Balance for 2021 is \$10,142,500. This amount includes rates remissions provided in the COVID Recovery Package of \$151,400 to the Commercial and Recreation Land Use Classes (LUC) and with this removed the anticipated general rates for the year would have been \$10,293,900.

Council's budgeted General Rates will increase to the rate of 5.895¢ per dollar of AAV property valuation, with a minimum amount payable of \$200. The minimum amount payable will increase from \$170 to \$200, this was anticipated to occur in the 2021 budget however was placed on hold due to the COVID pandemic. The rates model is consistent with Council's Rates Policy where the property value largely determines the general rate levied regardless of the LUC. General Rates are expected to provide \$10,786,900 including supplementary valuations.

The rates model for 2022 is based on the following principles:

- The Financial Management Strategy states that general rates will be increased annually at least with inflation to ensure that that the primary source of funding in the LTFP is not diminished and that Council is keeping pace with meeting the cost of providing services to the community.
- The rate increase is designed to keep pace with the cost of delivering the current level of service including the additional positions created in the organisational review in December 2020.
- General rates increases were placed on hold in 2021 in line with the Recovery Package decision of 7 April 2020. The 2021 LTFP identified that a 5% general rates increase was due in coming years to accommodate the COVID Recovery Package.
- Interest for late payment of rates has been produced in accordance with the Rates Policy. It is applied where a payment is made after the instalment due date. The amount is determined in accordance with Section 128 of the Act, which has increased from 6.81% to 7.87% for 2022.
- Council's Rates Policy does not apply a fixed % penalty in addition to the daily interest charge which is allowed under the Act for overdue instalments.
- Council's Rates Policy does not provide a discount for early payment of general rates which is allowed under the Act.
- The instalment system with a late payment interest charge with no discount and no fixed penalty has worked well since inception of Meander Valley Council in 1993. The community is familiar with our rates collection arrangements.
- Following the completion of the current significant capital works projects, future rates increases are required to offset the decline in bank interest from cash at bank and increased operating costs. The need for increases will be assessed annually as revenue and expenditure assessments are often subject to change. General rates increases above inflation are factored into the LTFP to provide for at least a break even position over the ten year period. Last year's LTFP provided 1% for 2021 to 2025 (5% total increase) however with changes to the waste structure and other operational changes, if adopted the LTFP will now provide for a total increase of 2% above inflation to occur in coming years.
- An increase of 3.75% in general rates will apply for property owners in the 2022 financial year.

Table 7: Indicative distribution of general rates provided from each Land Use Class

Land Use Class (LUC)	Rateable Properties	Rates 2022	LUC Share of Rates	
Commercial	188	815,900	7.6%	4,340
Industrial	87	301,000	2.8%	3,460
Primary Prod.	1,167	2,464,000	23.0%	2,111
Public Service	113	220,700	2.1%	1,953
Quarry	2	3,500	0.0%	1,750
Residential	8,011	6,639,000	61.9%	829
Sport & Rec.	15	23,400	0.2%	1,560
Vacant	810	264,400	2.5%	326
Total	10,393	\$10,731,900	100.0%	

Waste Management Service Charges

The waste service charges have been produced in line with Council's Financial Management Strategy and Rates Policy. The charge is based on all properties paying a fixed charge for the cost of Council's household waste management infrastructure including tips and transfer stations. An additional variable amount is charged for those properties receiving kerbside bin collection. The additional charge is for a standard 80 litre mobile garbage bin and one mobile recycle bin. The variable charge is increased where ratepayers opt for a larger 140 litre or 240 litre size mobile garbage bin.

The completion of the waste service charge implementation to a full cost recovery was achieved in 2017 after several years of planning. Council seeks the household waste function to be self-funding receiving an even contribution from all rateable properties that contributes to covering the significant cost of waste management for the municipality. The revenue it provides seeks to make waste cost recovery and underpins a lower general rate. The waste service charge received no change in 2021 due to Council's Recovery Package. The equitable fixed charge for the provision of waste services was unchanged at \$56 in 2021 however cost increases indicated that the charge would have been \$64. The charge has been reviewed in accordance with the Waste Strategy Principles adopted by Council in May 2021. The waste charge factors in the cost of facilities, anticipated rehabilitation provisions for existing landfill cells (due to close) and a new landfill cell at the Cluan facility which will be active from June 2021. To be full cost recovery the charge would require an increase to \$121 per property. The budget estimates propose a waste charge of \$107 for 2022 with significant work to be undertaken by Council Officers on management of Council's waste facilities and proposed new landfill areas during 2022. It is anticipated that the waste charge will increase in 2023 and 2024 above the \$107. The waste charge will raise approximately \$1,137,900 which reflects the costs of providing household waste infrastructure in a charge, rather than being included in Council's general rate's rate in the dollar calculation based on property value.

The kerbside bin collection charges are calculated on a cost recovery basis for those properties that receive the service. As demonstrated in Table 8 these costs have seen little increase for a number of years. The kerbside collection charge for 2022 is \$302 for an 80 litre bin, \$322 for a 140 litre bin and \$537 for a 240 litre bin which includes the base \$107 charge for all rateable properties. Kerbside bin collection charges will raise approximately \$1,436,700.

We continue to experience significant cost increases in the area of kerbside recycling bin collection, this is common for all Local Government and private operators in the recycling market. The cost of recycling and resistance of Asia to accept Australia's recycling input has increased the cost to the householder. The cost to provide the recycling service is estimated to have increased by 93% in the past two years. The kerbside bin collection service will be reviewed with Council's waste management strategy in the 2022 financial year with both the kerbside garbage bin and recycling bin contracts being put to tender. The cost increase of the kerbside bin collection service will be passed on those customers receiving the service in 2022.

Table 8: Waste service charges progressing to cost recovery 2019 to 2022

	2019	2020	2021	2022
80L kerbside collection	\$180	\$184	\$207	\$302
140L extra capacity kerbside collection	\$206	\$210	\$228	\$322
240L extra capacity kerbside collection	\$360	\$364	\$400	\$537
Fixed service charge	\$52	\$56	\$56*	\$107

^{*} Note fixed charge on hold, would increase to \$64 to be cost recovery.

State Fire Commission Contribution

The revenue to be raised for the State Fire Service Contribution is determined by, and paid to, the State Fire Commission, therefore there is no effect on the level of the general rate. The individual fire district contributions are set by the State Fire Commission. The Tasmanian Government advised they determined not to increase the levies in 2021 due to the COVID-19 pandemic. They have applied an average increase for 2022 of 2.36% with a minimum charge of \$42, amounts contained in Table 9.

Table 9: State fire commission contribution revenue request 2019 to 2022

Rating District	2019	2020	2021	2022
Launceston Permanent Fire Brigade	\$746,894	\$796,416	\$796,416	\$800,398
Country Volunteer Fire Brigade	\$226,556	\$238,596	\$238,596	\$250,229
General Land	\$218,516	\$229,836	\$229,836	\$244,025
Total	\$1,191,966	\$1,264,848	\$1,264,848	\$1,294,652

Financial Assistance Grants

Financial Assistance Grants (FAGs) funding is provided from the Commonwealth and administered by the State Grants Committee. The overall grants pool was approved in the Federal Budget. While a small indexation in the overall grant pool is expected from the Federal Government, Meander Valley's grant need, relative to other Tasmanian Councils, is declining and therefore is expected to offset any inflation increase. The grants have been budgeted for 2022 based on the 2021 allocation. This may prove be a conservative approach however it is noted that overall Council's funds received decreased by \$26,900 (-0.63%) in the 2021 financial year.

Table 10: Financial Assistance Grant amounts 2019 to 2022

FAGs	2019	2020	2021	2022
Roads	1,996,100	\$2,050,100	\$2,078,300	\$2,078,300

Annual FAG Payment	\$4,284,100	\$4,279,100	\$4,252,200	\$4,252,200

Fees & User Charges

Fees and user charges cover a wide range of services including planning, building plumbing, health services, animal licences, tip, cemetery fees and hire of Council facilities. They are reviewed by Council annually to ensure the amount charged is relative to the cost of providing a service (where applicable) and being in line with community expectations. Council's volume of building and planning applications remained extremely high for the 2021 financial year. While an additional planning position was intended from the December 2020 organisational review, unfortunately recruitment in this area has proven to be particularly difficult. Anticipated revenue for 2021 is well in excess of the budget largely due to building and planning fees. The annual review of fees and charges will occur at the July Council meeting with animal charges and health fees having been reviewed and set by Council in May 2021.

As part of the Recovery Package Council decided not to increase any existing charges in 2021, to waive fees for sport and recreation for ground and building hire from the closure until three months after facilities are reopened, and to waive food business licence fees for the 2021 financial year. These measures were anticipated to result in a one off reduction of \$130,000.

The percentage of fees and charge revenue, relative to overall revenue, is consistent with prior years however an increase has been experienced in the volume of building and planning applications. The amount in 2022 is estimated to be \$1,282,300, 5.9% of revenue which compares with 5.9% in the 2021 budget.

Table 11: Fees & user charges income 2019 to 2022

	2019	2020	2021	2022
Fees & User Charges	\$1,228,300	\$1,255,000	\$1,150,100	\$1,282,300
Operating Revenue	\$19,864,900	\$20,298,400	\$19,473,400	\$21,676,900
Percentage of Revenue	6.2%	6.2%	5.9%	5.9%

Other Revenue

Interest revenue from investments will decrease in 2022 due to significantly lower interest rates offered by financial institutions. Interest from loaned funds will be lower (with one loan fully repaid in 2021) and rate debtor interest is expected to increase slightly in line with the prescribed rate increasing from 6.8% in 2021 to 7.9% in 2022.

Council has an ownership interest of 3.02% in the State's water and sewerage corporation Taswater. Council's current ownership distribution is \$556,000 annually. Following the COVID-19 pandemic the board advised that half (\$278,000) of Council's 2020 would be cancelled and no distribution is likely for 2021. The current corporate plan 2022-2026 has reported more favourable conditions and identifies a distribution of \$278,000 for 2021 and \$667,200 for 2022 (\$111,200 over the annual allocation with intent to repay the \$556,000 shortfall from 2020 and 2021).

Other income includes unallocated property rental income and contributions from Northern Midlands Council under an employee shared service arrangement.

In addition to the FAGs Council has received a number of grants in 2021 and anticipates receipt of a range of grants 2022 outlined in Table 12 and Table 13.

Table 12: Operating grants income 2021 & 2022

State Fire Commission Contribution	\$1,1264,900	\$1,264,900	\$1,294,700	\$29,800
Other Expenditure	\$286,800	\$276,500	\$250,800	(\$25,700)
Total Expenditure	\$20,131,300	\$21,988,200	\$22,330,100	\$341,900

The operating expenditure of Council covers a wide range of services contained within the functions of Administration, Roads Streets & Bridges, Health & Community Services, Land Use Planning & Building, Recreation & Culture and Other Unallocated. Expenditure will increase in 2022, in part due to the organisational review approved in December 2020 and increases from Council's kerbside bin collection contractor.

Departments Expenditure

The operating expenses of the Departments will increase by \$92,400 (0.6%). There remains a particularly high one off and non-recurring project listing (some occur semi regularly such the four year Councillor elections). Alternatively recurring projects are those that that occur each year (such as parks & reserves mowing). A total of \$1,597,100 one off projects are anticipated to occur in 2022. A complete list of the one off projects is provided as Attachment 3. Recurring Departmental expenses have increased by \$555,500 (4.3%). The impact of increased employee numbers has been offset somewhat by some employee time being allocated directly to capital project work and some savings achieved in materials and contracts expenses.

Table 14: Departments expenditure itemised by function

Functional Area	2020	2021	2022
Administration & Governance	\$3,232,400	\$4,108,800	\$3,597,100
Roads, Streets & Bridges	\$2,388,100	\$2,456,800	\$2,426,800
Health, Community & Welfare	\$4,678,900	\$5,593,000	\$5,959,800
Land Use Planning & Building	\$1,328,300	\$1,431,000	\$1,636,400
Recreation & Culture	\$1,955,400	\$1,815,700	\$1,899,300
Unallocated & Heavy Plant CWP	(\$357,500)	(\$362,300)	(\$384,000)
Total Departmental Expenditure	\$13,225,600	\$15,043,000	\$15,135,400
Removal of one off project expenditure	(\$624,900)	(\$2,060,200)	(\$1,597,100)
Recurring Total Departmental Expenditure	\$12,600,700	\$12,982,800	\$13,538,300

Employee Expenditure

Council's Total employee costs are budgeted at \$8,511,500 for the 2022 financial year, an increase of \$614,700 (7.8%) from the 2021 total employee cost of \$7,896,800. Increases in employee expenditure result from new positions, cost increases for current employees (including annual salary increase) and increases in employment on costs such as Payroll Tax, Superannuation and Workers Compensation Insurance.

Council's organisational review was approved in December 2020. There was an increase of 5.2 full time equivalent (FTE) employees as a result of the organisational review. Since this time 0.2 FTE (one day per week) was removed from the Visitor Information Centre in the last recruitment that was undertaken.

A new temporary position is planned for Community Services in the Governance Department.

A new permanent position planned as an Organisational performance, reporting and culture officer in the Governance Department.

The 2022 budget includes the following temporary positions where the employee is designed to be on a temporary employment agreement, rather than being a permanent employee of Council:

Position	Function	Department
Manager Business & Economic Recovery	Economic Development	Governance
Community Officer	Community Development	Governance
Animal Control Officer (1 month transition)	Animal Management	Development & Regulatory Services

The annual salary increases provided to employees in accordance with Council's Employment Agreement through Fair Work. The agreement provides for employees to be provided with the greater of 2.5% or CPI (Hobart) March 2020 to 2021.

Employee on costs increase proportionately in line with the salary increases for current employees and additional costs are incurred for new positions. Payroll Tax and Workers Compensation percentages remain largely unchanged for the 2022 financial year however the government guarantee superannuation rate has been increased by 0.5% (to 10%) by the Federal Government.

The Departments expenditure includes employee costs. Department's wages are expected to increase by \$553,500 in 2022 from the 2021 budget noting that a budget adjustment to increase wages to the values in Table 14 were approved by Council in December 2020. Wages allocated to capital works projects are expected to increase by \$61,200 (9.8%) in 2022.

Borrowing Costs

Borrowing costs include interest paid to Tascorp for Council's loan liability balance of \$3.6 million and the present value movement associated with Council's liability to rehabilitate two landfill sites at Deloraine and Cluan.

Depreciation

Depreciation recognises the allocation of the value of an asset over its useful life. The depreciation charged on an annual basis is reflective of the services being provided to the community during the year. New and upgraded infrastructure capital expenditure has the effect of increasing the value of depreciation. Council were advised that the 2021 CWP would add \$104,000 in operating costs when the assets were complete. The May 2021 meeting agenda advised that the 2021 CWP would add \$223,777 in operating costs when the assets were complete. It is noted that much of the depreciation increase from 2021 to 2022 are a result of a new landfill area established at the Cluan landfill facility.

Other Expenditure

Community incentive grants of \$101,000 are included in this expenditure line. This amount also includes townscape incentive grants, community organisation regulatory fee refunds and representative sporting grants. The grants allocation has been maintained at the same rate as 2021, the grants allocation has not been fully utilised by applicants in the past two financial years. Also included in other expenditure is external audit fees paid to the State Government of \$34,500 and the cost of infrastructure assets required to be reconstructed before they reached the end of their full useful life.

Long Term Financial Plan

Council's Long Tern Financial Plan (LTFP) has been updated for the period 2022 to 2031 to assist in the long term nature of the decisions made in the operating budget. The LTFP demonstrates how Council's operating position is very much dependant on external revenue sources being Federal FAG grant funds, Taswater distributions and interest revenue. Cash reserves are also impacted by the level of capital works undertaken and the subsequent levels of interest income. The Financial Management Strategy requires Council to manage its LTFP to retain an underlying surplus after excluding capital income and expenditure. On this basis real increases (i.e. above inflation) of 2.0% are provided for in the LTFP. The Recovery Package approved by Council at the 7 April 2020 meeting provided for a range of financial measures and established a rates increases pending of around 5%, some of this has been made up in the 2022 budget estimates. Increases of 1% have been factored into the LTFP for each of 2023 and 2024 financial years. The need for those increases will be assessed in those respective years. These increases are included to ensure Council does not run at a loss over the ten year period. The LTFP is updated annually to review estimates for the ten year period and ensure they are current. The LTFP is balanced on the basis that one off project expenditure returns from the 2022 level (\$1,597,100) to an average of \$550,000 in order to achieve a break even position. Council is delivering a new waste management strategy in 2022, when all capital works on waste facilities are know there is expected to be additional capital expenditure on waste land improvements, heavy plant, establishment of a new landfill and a corresponding increase required to the waste service charge. These changes will be introduced in the 2023 LTFP. The LTFP summary is provided as Attachment 1.

The LTFP provides long term projections, a summary of significant financial information is provided in tables 15 to 17.

Table 15: LTFP Underlying surplus / (deficit) projections 2022 to 2031 ('\$000)

Summary

The 2022 Budget Estimates is expected to see Meander Valley maintain service levels while retaining the lowest General Rate in Northern Tasmania. The operating budget, rates resolution and long term financial plan for 2022 will provide the continuation of many essential services provided to the community. While the operating budget presents a substantial operating loss for 2022, this is as a result of the financial actions taken by Council in the COVID-19 Recovery Package and a particularly high level of one off project activity in 2022. General Rate increases above inflation will be required in future financial years in order to return the Long Term Financial Plan to a sustainable position. Waste service charge increases are expected in future financial years in delivering a new transfer station and landfill area to the community for the management of the municipality's waste. Council will encounter challenges in coming years to return to operating surplus' such as the additional cost of new infrastructure developments and to a lesser extent Council's reliance on external funding sources such as Taswater distributions, interest income and Financial Assistance Grants.

The operating budget, long term financial plan and capital works program have been prepared after presenting information to Councillors and discussions held during June Council Workshops. A summary of the rating recommendation is provided in Table 18.

Table 18: Recommended rates & charges 2021 with 2021 comparison

	Budget 2021	Budget 2022	Rates & Charges 2022
